### Guidelines for Honors Options Proposal

1. Honors study in a regular course should involve advanced level readings that deepen the student's understanding of the subject. Typically 10 scholarly sources are required in addition to the course reading materials.
2. Honors study in a regular course concludes with one of the following: a) a written project reflecting original or experimental research, b) a performance, or d) an exhibit.
3. Honors study in a regular course should include an oral presentation.

**To the Professor:** After conferring with the student, please sign the form. When you turn in your semester grades, indicate to the registrar whether the student completed the proposed Honors work.

**To the Student:** Please complete this application and give it to the Director of the College Honors Program by the **third week** of classes. Once the committee acts on your application, the Director will notify you, in writing, of the decision. If the committee approves your proposal, **you will be required to turn in a copy of your completed project to the Director of the College Honors Program at the end of the semester.**

**I. List the requirements that all students in this course will complete or attach a syllabus.**

**II. List the requirements that will constitute the Honors work:**

**a. Advanced level readings:**

**b. Description of project (research paper, experiment, performance, exhibit)**

**c. Topic and description (as much as possible) of researched oral presentation**
